Ileana Rodriguez Bautista

Corazon de Jesus street no. 175, El Almirante, Santo Domingo Este, Dominican Republic

Mobile pone: 809-915-3133   Email: lilyazu289@gmail.com

Frameworks, languages and tools

Languages: Advance C#, basic Java, R and Python, VB6
Databases: MS SQL, MySQL, basic Oracle
Development Methodologies: Agile (Scrum)
Web Development: HTML5, CSS3, Angular, Bootstrap, JQuery, TypeScript, Javascript
Control Version: Git, SVN
Others: Jira, Kanban

Working Experience

Developer (**04/2017 – Present**) - Kore Telematics – IoT & M2M service provider, +1 513-792-6066
Technologies used: MS SQL, WinForms, ASP.NET (Web Forms and Razor), Angular4, Git, RabbitMQ.
Highlights: Position Logic is a Location Based Service which works with multitenancy. Learned about how multitenancy is managed at an architecture level while on sustaining team.

Senior Developer (10/2014 – 03/2017) - ObjectLink S.R.L (Contractor for NeoMed)
Technologies used: MS SQL, WPF4, WinForms, VB6, INFRAGISTICS, SVN then Git, ASP.NET, Telerik, AngularJS.
Highlights: NeoMed is a medical software that was certified CDA. I was part of the certification for 2016 and worked which some custom integrations with other software.

Junior Developer (10/2013 – 10/2014) - ObjectLink S.R.L (Contractor for NeoMed)
Technologies used: MS SQL, WPF4, WinForms, INFRAGISTICS, SVN, ASP.NET, Telerik, Kendo UI.
Highlights: Lots of data integration using files, some of the formats where excel, XML, JSON, CVS and CCD/CCDA.

Education

09/2014 – 10/2018 Software Engineering at UNAPEC
09/2011 – 08/2014 Software Development Technologist at ITLA

Languages

Fluent: Spanish, English
Learning (basic): French, Japanese

Seminars - Courses

- C# Generics from Pluralsight

- Introduction to Regular Expressions (Regex) from Pluralsight

- LINQ Fundamentals with C# 6.0 from Pluralsight

- Understanding Machine Learning from Pluralsight

- Bertelsmann Data Science Challenge Scholarship
- Udacity Data Foundations Nanodegree

Just a little about myself

I'm an avid reader of fantasy, like to crochet and knit on my free time, try to bake things or make my herb garden last more than one month each time I re-plant it. I see myself in the future as a Data Analysts.
